

# Report for Tur Langton Parish Council

Report Creator: Simon Traill, July 13, 2020

Evaluation Commissioner: Tur Langton Parish Council

## Summary of the evaluation findings

To meet the government's stated requirements for accessibility of public sector websites

(<https://www.gov.uk/guidance/accessibility-requirements-for-public-sector-websites-and-apps>

(<https://www.gov.uk/guidance/accessibility-requirements-for-public-sector-websites-and-apps>)), the Tur Langton Parish Council website needs to:

- Meet the international WCAG 2.1 AA accessibility standard - although there may be valid legal reasons for not meeting accessibility standards
- Publish an accessibility statement that explains how accessible your website or mobile app is

This report strictly clarifies only the first requirement here (WCAG 2.1 level AA compliance) but can also be used as the basis for an accessibility report, as well as any remedial work to improve the website accessibility.

At the time of evaluation, the site does not meet WCAG 2.1 level AA compliance, but this is to be expected given that this evaluation is the first to be carried out, and most remedial tasks are probably not too onerous.

The site has been created using the WIX website creation tool. On the whole, this is probably a good thing, as the level of consistency across the site is generally high which makes evaluation (and creating content for accessibility in mind) far easier. That said, it may be hard to remediate some of the evaluation failures below because of this. If this proves to be the case, given the lack of developer resources easily available to the council, the evaluator feels that these would probably be candidates for an exception under the "disproportionate burden" aspect of the accessibility guidelines. That said there are plenty of things that can be improved on.

## Suggested Remediations

The detailed part of the report can get technical, so I've tried to explain the most impactful remediations in plain English below. Making the suggested changes here would substantially improve the WCAG compliance level of the site.

I've broken these suggestions down by the WCAG "Principle" (Section) they first crop up in, but in many cases implementing the suggestions will allow multiple WCAG criteria to pass.

### WCAG Principle 1

- The top left image containing the site logo (CSS selector: `a#comp-igppoqeelink.ca1link`) does not have a discernible name attribute. Adding one will remediate a swathe of failures in section 1.
- Add descriptive names or alt-text to the images within the image gallery on the home page.
- The logo images on the Neighbourhood plan page would benefit from descriptive names or alt-text.
- The map images on the "Local Walks" page lack descriptive names or alt-text.
- The time-based image carousel on the "Photo Gallery" page should be removed entirely and replaced with something more similar to that on the "Remediation Update" page.
- Form elements on the "Contact" and "Jigsaw Library" pages lack corresponding HTML "label" elements; add some.
- The images on the "Consultations" page - "A New Lease For the Village Hall" and "The Cost of The Village Hall Lease" lack descriptive alt-text; add some.

- The embedded Mixamo widget with the renovation details PDF on the "Consultations" page has little accessible value; it should either be replaced or an alternative link to simply download the PDF, with a little accompanying explanatory text, should be added.
- The WIX header at the top of the page and the "Use of Cookies" link at the bottom interrupt the meaningful flow of information within the page when navigating it with a keyboard or screen reader. If they can be removed (without disproportionate financial burden) they should, ideally. This may be hard to remediate for the reasons noted above.
- Multiple elements have insufficient contrast ratios. These can be easily noted using an automated accessibility testing tool such as WAVE, Tenon.io, or Google Lighthouse, and then the colour palette should be adjusted accordingly.
- The page is not "Responsive" in that - when the viewport (browser window) is deliberately made small, or the site is zoomed in to a high level, it is still necessary to use both horizontal and vertical scrolling in order to view all the content. In a responsive layout, elements that are not considered critical - like the left hand nav - vanish as the viewport is resized. To remediate, look at options for making the navigation and / or header elements responsive in this way; WIX may make this difficult.
- The map images on the "Local Walks" page are placed too close to their explanatory text; when text is resized, they obscure visual content. Move them further away from their associated comments.

## WCAG Principal 2

- The home page is unique in that it lacks a top level Header HTML element in the content region of the page. Add one; it allows screen readers to navigate with much greater ease.
- The home page contains some links that break the flow of tab-navigation ordering - specifically, "Neighbourhood Plan", "Defibrillator", "2017 / 18 Accounts", and "Jigsaw Library". The placement of these links should be looked at and they should be moved until their placement does not break a meaningful tab-navigation of the page.

This report was written with the assistance of the WIA's WCAG-EM Assessment Tool at <https://www.w3.org/WAI/eval/report-tool> (<https://www.w3.org/WAI/eval/report-tool>).

## Scope of the evaluation

<b>Website name</b>	Tur Langton Parish Council
---------------------	----------------------------

<b>Scope of the website</b>	<p>The website is of small to medium size, and provides local community information supporting Tur Langton Parish Council.</p> <ul style="list-style-type: none"> <li>- We considered all content held under the domain <a href="https://www.turlangton-pc.org.uk">https://www.turlangton-pc.org.uk</a> (<a href="https://www.turlangton-pc.org.uk">https://www.turlangton-pc.org.uk</a>) to fall under the remit of this audit, including embedded content held by external services</li> <li>- We did not consider the content of external links.</li> <li>- The site is considered by Staveley Trail to be a small to medium size website. A representative sample chosen according to the WCAG 2.1 guidelines was chosen for evaluation, rather than the entire site.</li> <li>- We considered desktop accessibility using mainly manual methods with the assistance of an automated accessibility checker (Google Lighthouse).</li> <li>- Only the English version of the website was considered, it not being available in other languages.</li> <li>- No related websites exist so the entire scope of the audit covers the URLs covered by the representative sample only.</li> </ul>
<b>WCAG Version</b>	WCAG 2.1
<b>Conformance target</b>	Level AA
<b>Additional evaluation requirements</b>	None.
<b>Accessibility support baseline</b>	<ul style="list-style-type: none"> <li>- The test platform OS was Mac OS 10.15.4, and tests were carried out using two browsers: Google Chrome Version 83.0.4103.116 (Official Build) (64-bit) and Safari Version 13.1 (15609.1.20.111.8). Other platforms were not specifically considered in the scope of this evaluation, but since most testing was carried out via manual inspection of website content and code, it is considered likely that these evaluation results will apply to other common platforms and browsers as well.</li> <li>- We also used a screen reader program in the course of this evaluation (Apple VoiceOver version 10).</li> </ul>
<b>Relied upon technologies</b>	<ul style="list-style-type: none"> <li>• HTML5</li> <li>• CSS</li> <li>• WAI-ARIA</li> <li>• ECMAScript 5</li> <li>• DOM</li> </ul>

## Overview of audit results

Results of Level AA

Principle	Level A	Level AA
<b>1. Perceivable</b>	6 / 9	6 / 11
<b>2. Operable</b>	10 / 14	2 / 3
<b>3. Understandable</b>	4 / 5	5 / 5
<b>4. Robust</b>	2 / 2	1 / 1
<b>Total</b>	22 / 30	14 / 20

## Detailed audit results

# Principle 1 Perceivable

## 1.1 Text Alternatives

### 1.1.1 Non-text Content: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Many pages are fine; one common element shown below causes failures across many pages and remediating it will allow most pages to pass.

Since many other failures lead on from this test, the evaluation results here are more detailed - remediating just section 1.1.1 will in itself improve the pass rate of other criteria in the evaluation.

- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`. This will remediate failures across several pages.

Page specific failures were observed for these pages:

- <https://www.turlangton-pc.org.uk> (<https://www.turlangton-pc.org.uk>)
- <https://www.turlangton-pc.org.uk/neighbourhood-plan> (<https://www.turlangton-pc.org.uk/neighbourhood-plan>)
- <https://www.turlangton-pc.org.uk/local-walks> (<https://www.turlangton-pc.org.uk/local-walks>)
- <https://www.turlangton-pc.org.uk/photo-gallery> (<https://www.turlangton-pc.org.uk/photo-gallery>)
- <https://www.turlangton-pc.org.uk/contact> (<https://www.turlangton-pc.org.uk/contact>)
- <https://www.turlangton-pc.org.uk/jigsaw-library> (<https://www.turlangton-pc.org.uk/jigsaw-library>)
- <https://www.turlangton-pc.org.uk/renovation-update> (<https://www.turlangton-pc.org.uk/renovation-update>)

For other page specific issues and remediation advice, see individual page results.

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Failed

**Findings:** Manual Testing:

- Image carousel on lower half of page contains non-descriptive alt text for images when read via screen reader (eg, "IMG\_971")

Automated Testing:

- Link `a#comp-iqgpoqeelink.ca1link` does not have discernible name (this element is common to all pages)

Remediation:

- Add human-descriptive alt text to images within carousel
- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`.

Results for: (<https://www.turlangton-pc.org.uk/the-parish-council>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link `a#comp-iqgpoqeelink.ca1link` does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`.

Results for: (<https://www.turlangton-pc.org.uk/policies-and-documents>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link `a#comp-iqgpoqeelink.ca1link` does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`.

---

Results for: (<https://www.turlangton-pc.org.uk/lcc-consultation-sexual-health>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link `a#comp-iqgpoqeelink.ca1link` does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`.

---

Results for: (<https://www.turlangton-pc.org.uk/nhs-mental-health-central-point>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link `a#comp-iqgpoqeelink.ca1link` does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`.

---

Results for: (<https://www.turlangton-pc.org.uk/coronavirus>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link `a#comp-iqgpoqeelink.ca1link` does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element `a#comp-iqgpoqeelink.ca1link`.

---

Results for: (<https://www.turlangton-pc.org.uk/neighbourhood-plan>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

Multiple links do not have discernible names:

- Link a#comp-iqgpoqeelink.ca1link
- Link a#comp-ishbzhyalink.ca1link
- Link a#comp-ishc3opjlink.ca1link

Remediation:

- Investigate adding a suitable "name" attribute to elements listed above.
- 

Results for: (<https://www.turlangton-pc.org.uk/a-brief-history>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/renovation-update>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures (despite presence of image gallery carousel, which has excellent descriptive alt-text!)

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/local-walks>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No alt text for any map images, making them more or less invisible to a screen reader.

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediations:

- Add alt text to map images
  - Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/defibrillator>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/emergency-reponse-plan>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/police>)

**Outcome:** Failed

**Findings:** Manual Testing:

- No failures.

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediation:

- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/photo-gallery>)

**Outcome:** Failed

**Findings:** Manual Testing:

- WIX Slideshow gallery (time based media) has no captions, text alt-names, nor options for manual control

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

Remediation:

- Choose a different slideshow widget for photos with alt-text and opportunity for manual control
  - Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- 

Results for: (<https://www.turlangton-pc.org.uk/contact>)

**Outcome:** Failed

**Findings:** Manual Testing:

- Form elements have textual placeholders but lack labels making screen reader navigation harder

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)

- Form elements do not have associated label. Failing Elements:

- input#field1.cf1\_required
- input#field2.cf1\_required
- input#field3

- textarea#CntctFrm0-rr4fieldMessage.cf1fieldMessage

Remediation:

- Add form labels to form elements.
- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.

Results for: (<https://www.turlangton-pc.org.uk/jigsaw-library>)

**Outcome:** Failed

**Findings:** Manual Testing:

- Form elements have textual placeholders but lack labels making screen reader navigation harder
- Jigsaw images all well documented with appropriate alt-text

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)
- Form elements do not have associated label. Failing Elements:
  - input#field1.cf1\_required
  - input#field2.cf1\_required
  - textarea#comp-jp7eyae9fieldMessage.cf1fieldMessage

Remediation:

- Add labels to form elements
- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.

Results for: (<https://www.turlangton-pc.org.uk/consultations-1>)

**Outcome:** Failed

**Findings:** Manual Testing:

- Images entitled "A New Lease For the Village Hall" and "The Cost of The Village Hall Lease" lack descriptive alt-text (they are simply labelled with non-descriptive file names)
- Embedded Mixamo widget with renovation PDF at bottom of page has no descriptive text (and in practical terms is almost impossible to operate with a screen reader)

Automated Testing:

- Link a#comp-iqgpoqeelink.ca1link does not have discernible name (this element is common to all pages)
- <frame> or <iframe> elements do not have a title (making it invisible to screen readers). Affected element: #comp-jvk1r653iFrameHolder > iframe

Remediation:

- Investigate adding a suitable "name" attribute to element a#comp-iqgpoqeelink.ca1link.
- Add a title attribute to #comp-jvk1r653iFrameHolder > iframe.
- Add suitably descriptive alt-text to the top images ("A New Lease For the Village Hall" and "The Cost of The Village Hall Lease")
- Either replace the mixamo widget entirely with something more accessible, or supplement it with a "download this PDF" link

## 1.2 Time-based Media

### 1.2.1 Audio-only and Video-only (Prerecorded): (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No applicable media exists in the sample set.

### 1.2.2 Captions (Prerecorded): (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No applicable media exists in the sample set.

### 1.2.3 Audio Description or Media Alternative (Prerecorded): (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No applicable media exists in the sample set.

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Not present

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/the-parish-council>)

**Outcome:** Not present

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/policies-and-documents>)

**Outcome:** Not present

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/lcc-consultation-sexual-health>)

**Outcome:** Not present

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/nhs-mental-health-central-point>)

**Outcome:** Not present

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/coronavirus>)

**Outcome:** Not present

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/neighbourhood-plan>)

**Outcome:** Not present

**Findings:** –

**Outcome:** Not present

**Findings:** –

#### 1.2.4 Captions (Live): (Level AA)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No applicable media exists in the sample set.

#### 1.2.5 Audio Description (Prerecorded): (Level AA)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No applicable media exists in the sample set.

### 1.3 Adaptable

#### 1.3.1 Info and Relationships: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** For the most part criteria met (screen reader can access all content).

A few failures requiring remediation:

- <https://www.turlangton-pc.org.uk/neighbourhood-plan>: (<https://www.turlangton-pc.org.uk/neighbourhood-plan>;) a couple of images lack discernible names, though this is advisory here: the images aren't central to the informative content of the page (see 1.1.1)
- <https://www.turlangton-pc.org.uk/photo-gallery>: (<https://www.turlangton-pc.org.uk/photo-gallery>;) photo carousel should really be replaced with something else allowing textual description and manual controls (see 1.1.1)
- <https://www.turlangton-pc.org.uk/contact> (<https://www.turlangton-pc.org.uk/contact>) and <https://www.turlangton-pc.org.uk/jigsaw-library>: (<https://www.turlangton-pc.org.uk/jigsaw-library>;) forms have text but no labels, making programmatic determination of structure hard (see 1.1.1)
- <https://www.turlangton-pc.org.uk/renovation-update>: (<https://www.turlangton-pc.org.uk/renovation-update>;) get rid of the Mixamo embed, or add a PDF download link with a brief description - this has a large impact of the information value of the page (see 1.1.1)

---

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Passed

**Findings:** –

---

Results for: (<https://www.turlangton-pc.org.uk/the-parish-council>)

Results for: (<https://www.turlangton-pc.org.uk/contact>)

**Outcome:** Failed

**Findings:** Forms have text but no labels, making programmatic determination of structure hard (see 1.1.1)

---

Results for: (<https://www.turlangton-pc.org.uk/jigsaw-library>)

**Outcome:** Failed

**Findings:** Forms have text but no labels, making programmatic determination of structure hard (see 1.1.1)

---

Results for: (<https://www.turlangton-pc.org.uk/consultations-1>)

**Outcome:** Failed

**Findings:** Get rid of the Mixamo embed, or add a PDF download link with a brief description - this has a large impact of the information value of the page (see 1.1.1)

---

### 1.3.2 Meaningful Sequence: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Sequence and flow was assessed manually using a screen reader and keyboard navigation.

Screen reader / tab navigation / DOM order is not strongly related to semantic content due mostly to the WIX added common elements, though nav / content ordering also inappropriate in some cases.

This is universally true across all pages and is probably a consequence of the use of the WIX software. As a result, it may be hard to remediate.

The main culprits here are:

- The WIX ordering frame containing the WIX logo and advertising header
  - The "Use of Cookies" link at the bottom of the page
  - The left nav is a little borderline with it's use of CSS on: hover events to show submenus, but these can be navigated with a keyboard. I'd advise looking into changing this for something a little less flashy - but it's not a fail.
-

Results for the entire sample:

**Outcome:** Passed

**Findings:** For the most part complex UI/UX controls are not used, only links and clickable elements with text.

A few pages buck the trend - the usual suspects as noted above:

- <https://www.turlangton-pc.org.uk/neighbourhood-plan>: (<https://www.turlangton-pc.org.uk/neighbourhood-plan>;) Some images lack names. See 1.1.1 for remediation.

- <https://www.turlangton-pc.org.uk/local-walks> (<https://www.turlangton-pc.org.uk/local-walks>) - Map images lack alt-text making them more or less invisible to screen readers. See 1.1.1

- <https://www.turlangton-pc.org.uk/photo-gallery> (<https://www.turlangton-pc.org.uk/photo-gallery>) - Photo carousel should really be replaced with something else allowing textual description and manual controls

- <https://www.turlangton-pc.org.uk/consultations-1> - (<https://www.turlangton-pc.org.uk/consultations-1>)  
Mixamo embed is very hard to use for non-sighted users

**Findings:** Graphs use colour to indicate results but accompanying text accurately describes the data

#### 1.4.2 Audio Control: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No audio controls are in use on the site.

#### 1.4.3 Contrast (Minimum): (Level AA)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Header and content text in grey-on white background shows insufficient contrast.

Manual Testing:

- Observed

Automated Testing:

The following elements have insufficient contrast ratios against the background. These elements are common to all pages.

Failing Elements

h4.font\_4

span#comp-isjwn7ialabel.style-jw99hysjlabel

span#comp-iv2u25qqlabel.style-jw99hysjlabel

span#comp-jznb7n49label.style-jw99hysjlabel

span.color\_18

span#comp-izza7d20label.style-jw99hysjlabel

span#comp-ji9xhsfxlabel.style-jw99hysjlabel

span#comp-jp9lciovlabel.style-jw99hysjlabel

a.style-jwaoqv7m\_label.level0

Some pages have individual elements that could also benefit from increased contrast:

Remediation:

- Make affected foreground text darker (background is already as light as it can be for the most part at #FFFFFF)

**Outcome:** Passed

**Findings:** –

#### 1.4.5 Images of Text: (Level AA)

Results for the entire sample:

**Outcome:** Failed

**Findings:** From manual inspection, only one page fails to meet these criteria:

- <https://www.turlangton-pc.org.uk/consultations-1>: (<https://www.turlangton-pc.org.uk/consultations-1>);

The images entitled "A New Lease for the Village Hall" and "The Cost of the Village Hall Lease" contain textual and graphical information accessible only via the images, but accompanying text accurately describes the content of the images so this is not in itself a fail

- The Mixamo PDF embedded control presents a PDF that would in itself be suitable for non-visual consumption but the use of the widget without an alternative method of reading the PDF document precludes this

- Some other pages contain images of text without explanation but the content is not considered critical to the purpose of the website

Remediation

- Replace the Mixamo PDF widget or supplement it with a PDF download link and description

**Outcome:** Passed

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/consultations-1>)

**Outcome:** Failed

**Findings:** See general comments above

#### 1.4.10 Reflow: (Level AA)

Results for the entire sample:

**Outcome:** Failed

**Findings:** From manual inspection, the website - in general - is not responsive; elements remain visible and in the same locations when the viewport is made smaller or when the display is zoomed in (to 400%). Horizontal and vertical scrolling is required to view content at these viewport sizes and scales.

Remediation:

- Make the left nav responsive (ie, allow it to disappear entirely when the viewport width is made smaller)
- Ensure the right hand content pane is sized to remain at a percentage width, rather than a fixed pixel width.

This may be hard due to the use of WIX for the site: the main culprits here - all generated by the website creation tool - appear to be

- div[#id="SITE\_BACKGROUND"]
- div[#id="SITE\_ROOT"]
- header[id="SITE\_HEADER"]

...all of which use the width attribute specified in pixels, and are constantly recalculated using javascript on viewport resize. This solution was a popular method for dealing with viewport resizing in the last century. WIX appears to have continued its practice into this one.

If WIX offers "responsive design" features or tooling, they should be made use of. Failing this, an alternative mobile site could be offered to users with mobile devices or visual impairments.

**Outcome:** Failed

**Findings:** –

#### 1.4.11 Non-text Contrast: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** From manual inspection: no non-text elements are critical to understanding the site content, with the exception of the Mixamo PDF embed on <https://www.turlangton-pc.org.uk/consultations-1> (<https://www.turlangton-pc.org.uk/consultations-1>). The PDF itself is not subject to the evaluation scope, and the Mixamo widget, for all its many palpable flaws, does not suffer from contrast problems.

#### 1.4.12 Text Spacing: (Level AA)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Pages were manually assessed with the help of the w3c recommended text spacing bookmarklet at <https://www.html5accessibility.com/tests/tsbookmarklet.html> (<https://www.html5accessibility.com/tests/tsbookmarklet.html>).

All pages except one passed. The exception:

- <https://www.turlangton-pc.org.uk/local-walks>: (<https://www.turlangton-pc.org.uk/local-walks>): Map images obscure explanatory text after text resize.

Remediate by positioning map images using relative rather than absolute positioning in CSS.

#### 1.4.13 Content on Hover or Focus: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** From manual observation. Only two items meet these criteria across the sample:

- The on: hover nav elements common the every page
- The "Use of Cookies" modal seen on page startup.

Both meet the criteria above.

## Principle 2 Operable

### 2.1 Keyboard Accessible

#### 2.1.1 Keyboard: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** All pages pass save for <https://www.turlangton-pc.org.uk/photo-gallery> (<https://www.turlangton-pc.org.uk/photo-gallery>) - the non-interactive photo gallery fails this test.

To remediate, replace the photo gallery with one containing manual controls.

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Passed

**Outcome:** Passed

**Findings:** –

### 2.1.2 No Keyboard Trap: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** There are no keyboard traps across the sample, from manual tab navigation testing.

That said keyboard tab ordering is largely unrelated to site content, making understanding for partially sighted or blind users, and screen reader software struggles to navigate the scheme of the page with notable traps (tested using Apple VoiceOver) on the WIX top banner and the "Use of Cookies" link at the bottom of all pages.

Strictly this is a pass so no remediation is required, but if the WIX banner and / or "Use of Cookies" links can be removed or made less prominent in the page it would help here, and would enable other evaluation criteria to pass.

### 2.1.4 Character Key Shortcuts: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No character key shortcuts are presented by the content in the sample.

## 2.2 Enough Time

### 2.2.1 Timing Adjustable: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** From manual and automated testing, all pages pass aside from the auto-rotating photo carousel on <https://www.turlangton-pc.org.uk/photo-gallery> (<https://www.turlangton-pc.org.uk/photo-gallery>). Replace it to remediate.

---

Results for: (<https://www.turlangton-pc.org.uk/consultations-1>)

**Outcome:** Passed

**Findings:** –

### 2.2.2 Pause, Stop, Hide: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No informational content is presented in this way - only photos which are not considered to add critical informational value to the site's content.

## 2.3 Seizures and Physical Reactions

### 2.3.1 Three Flashes or Below Threshold: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No flashes exceeding the threshold were found across the sample.

## 2.4 Navigable

### 2.4.1 Bypass Blocks: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Manual observation. All pages bar the home page pass this test (as the content region to the right usually contains at least one header element, allowing screen reader users to bypass common content).

The only page that fails here is the homepage - <https://www.turlangton-pc.org.uk/> (<https://www.turlangton-pc.org.uk/>) - as the lack of a top level header within the content region precludes screen reader users from navigating directly to it.

Remediation: add a top level header to the content region on <https://www.turlangton-pc.org.uk/> (<https://www.turlangton-pc.org.uk/>).

---

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Failed

**Findings:** Fails; content area lacks tags allowing keyboard users to skip common content. To remediate, add a header element to the top of the content region (or another type of landmark, such as an ARIA zone label)

---

Results for: (<https://www.turlangton-pc.org.uk/the-parish-council>)

**Outcome:** Passed

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/photo-gallery>)

**Outcome:** Passed

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/contact>)

**Outcome:** Passed

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/jigsaw-library>)

**Outcome:** Passed

**Findings:** –

Results for: (<https://www.turlangton-pc.org.uk/consultations-1>)

**Outcome:** Passed

**Findings:** –

**2.4.2 Page Titled:** (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. The page content is well titled across the entire sample set.

**2.4.3 Focus Order:** (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Manual observation. Tab navigation and element focus order is generally in line with content, and the left nav is navigated after the main body content on most pages, preserving usability.

The one exception is the home page, <https://www.turlangton-pc.org.uk> (<https://www.turlangton-pc.org.uk>), which contains various highlighted links:

- "Neighbourhood Plan"
- "Defibrillator"
- "2017 / 18 Accounts"
- "Jigsaw Library"

In focus order, the "Neighbourhood Plan" link is focused first, then focus moves to controls in the main content region before control is passed back to "Defibrillator", breaking semantic flow for keyboard users.

To remediate, either place all the above links in the main content region, or place them all in the left nav area.

---

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Failed

**Findings:** Additional nav links at bottom of page break flow

---

Results for: (<https://www.turlangton-pc.org.uk/the-parish-council>)

**Outcome:** Passed

**Findings:** –

#### 2.4.4 Link Purpose (In Context): (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. All links provide good semantic meaning.

#### 2.4.5 Multiple Ways: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. Users can reach other sample pages by the left nav section and through in-page links, and can navigate back to the home page via a single, consistent, visible link on each page

#### 2.4.6 Headings and Labels: (Level AA)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Manual and automated observations. Headings and labels are all consistent and meaningful with the exception of three pages:

- <https://www.turlangton-pc.org.uk> (<https://www.turlangton-pc.org.uk>) - the main content region uses the page header as an implied title but should have its own sub header for consistency with other pages, and to allow easier keyboard navigation
- <https://www.turlangton-pc.org.uk/contact>: (<https://www.turlangton-pc.org.uk/contact>) Forms lack label elements
- <https://www.turlangton-pc.org.uk/jigsaw-library>: (<https://www.turlangton-pc.org.uk/jigsaw-library>) Forms lack label elements

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Failed

**Findings:** The main content region uses the page header as an implied title but should have its own sub header for consistency with other pages, and to allow easier keyboard navigation

**Outcome:** Passed

**Findings:** –

#### 2.4.7 Focus Visible: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** No specific keyboard interface is provided in any part of the sample. User agents provide visual feedback on the page for tab nav and screen readers (VoiceOver) as expected

## 2.5 Input Modalities

#### 2.5.1 Pointer Gestures: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** No such control exist in the sample.

#### 2.5.2 Pointer Cancellation: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** Manual and automated observation. No mouse event code was modified in the website creation; controls operable on click respect the above criteria.

#### 2.5.3 Label in Name: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** No such controls exist aside from the form elements on two pages - which both meet these criteria.

#### 2.5.4 Motion Actuation: (Level A)

Results for the entire sample:

**Outcome:** Not present

**Findings:** –

## Principle 3 Understandable

### 3.1 Readable

#### 3.1.1 Language of Page: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual and automated observation. All pages contain the lang="en" attribute on the html top element.

### 3.1.2 Language of Parts: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual and automated observation. The website is exclusively in English, and this can programmatically be determined from the top html element.

## 3.2 Predictable

### 3.2.1 On Focus: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. Focus changes do not alter context for any page within the sample.

### 3.2.2 On Input: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. Contextual changes do not occur unless using elements well-known to do so (like links)

### 3.2.3 Consistent Navigation: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. Core navigational elements are placed consistently across the entire site.

### 3.2.4 Consistent Identification: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. Common elements are identified consistently across pages and left nav elements share the same aria-label attribute ("Site") across the sample

## 3.3 Input Assistance

### 3.3.1 Error Identification: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Only two pages have input elements that could encounter an input error (forms), and both provide correct error messages for bad input - specifically, and email address - in text

### 3.3.2 Labels or Instructions: (Level A)

Results for the entire sample:

**Outcome:** Failed

**Findings:** Manual and automated observation. The two pages containing forms - <https://www.turlangton-pc.org.uk/contact> (<https://www.turlangton-pc.org.uk/contact>) and <https://www.turlangton-pc.org.uk/jigsaw-library> (<https://www.turlangton-pc.org.uk/jigsaw-library>) - have text descriptions, but no labels.

Remediate by adding label elements to these forms.

Results for: (<https://www.turlangton-pc.org.uk>)

**Outcome:** Not present

**Findings:** –

### 3.3.4 Error Prevention (Legal, Financial, Data): (Level AA)

Results for the entire sample:

**Outcome:** Not present

**Findings:** Manual observation. No such opportunities exist in this website.

## Principle 4 Robust

### 4.1 Compatible

#### 4.1.1 Parsing: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Automated observation. Markup generated by WIX and is complete.

#### 4.1.2 Name, Role, Value: (Level A)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual and automated observation. Interactive elements are for the most part all simple (links and forms) and meet this criterion.

The exception is the Mixamo PDF embedded widget on <https://www.turlangton-pc.org.uk/consultations-1> (<https://www.turlangton-pc.org.uk/consultations-1>); that said, this widget can be programmatically controlled, it updates the DOM model on change making it visible to user agents and accessibility tools, and its state could be programmatically determined, in theory, although the author would really prefer that this were done by someone else.

I'd recommend adding an alternative way for users to access the PDF as recommended previously, but this does not constitute a fail here.

#### 4.1.3 Status Messages: (Level AA)

Results for the entire sample:

**Outcome:** Passed

**Findings:** Manual observation. The only applicable elements here are the two forms on <https://www.turlangton-pc.org.uk/contact> (<https://www.turlangton-pc.org.uk/contact>) and <https://www.turlangton-pc.org.uk/jigsaw-library> (<https://www.turlangton-pc.org.uk/jigsaw-library>) .

In both cases successful form submission is accompanied by the text message "Success! Message sent" or "Thanks! Message sent."

## Sample of audited web pages

Home page	<a href="https://www.turlangton-pc.org.uk">https://www.turlangton-pc.org.uk</a> ( <a href="https://www.turlangton-pc.org.uk">https://www.turlangton-pc.org.uk</a> )
