Tell Us Your Priorities for a Safer & Stronger Community

We are refreshing our Community Safety Plan for 2017/18.

Your Community Safety Partnership wants to know what you think the priorities should be in the plan, to help make your community "a vibrant, safe and prosperous place to live".

If you could add this to your next parish meeting agenda for discussion and feedback by end December 2016, it would be much appreciated.

Using the response form below, please agree your three top priorities for the Partnership to consider in priority order. This current year's priorities are shown below, plus a list of possible issues you may want to highlight for next year.

Please return after completion, by email if possible, to the Community Safety Team at Harborough District Council. Contact details are on the reply form.

Your contributions are valued and will be considered by the Partnerships' Strategy Group when allocating funding to priorities.

Copies of the Community Safety Plan will be published in April 2017 and a copy can be sent to you if you request one.

Thank you for your help with this survey.
