

# **TUR LANGTON PARISH COUNCIL RISK ASSESSMENT**

**Adopted 11/03/25 for review March 2026**

## **Notes**

**“The greatest risk facing a local authority is not being able to deliver the activity or services expected of the Council.”**

Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that will enable the Parish Council to identify any and all potential risks inherent in the place or practices. Based on a recorded assessment the Parish Council should then take all practical and necessary steps to reduce or eliminate the risks, insofar as is practically possible. Making sure that all employees, councillors, volunteers, contractors and members of the public (where applicable) are made aware of the results of the risk assessment.

This document has been produced to enable the Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. In conducting this exercise, the following plan was followed:

- Identify the areas to be reviewed.
- Identify what the risk may be.
- Evaluate the management and control of the risk and record all findings.
- Review, assess and revise if required.

Where the abbreviation “G & A doc” is used it refers to “Governance and Accountability for Local Councils ”

## TUR LANGTON PARISH COUNCIL RISK ASSESSMENT

	Risks Identified	H/M/L	Management /control of risk	Review/Assess/Revise
