Hello Alison

Going via the LCC Framework the 'Basic Set Up' costs would be £650 + VAT and the 'Annual Costs' would be £400 + VAT (regardless of precept size). You would receive your [.org.uk](#) domain FOC through the framework but email accounts would be charged at £25 + VAT per email account.

Coming to us outside of the LCC Framework we would charge for Parish Councils of a precept of £15k or less, 'Basic Set Up' costs of £250 + VAT and the 'Annual Costs' would be £250 + VAT. Your [.org.uk](#) domain name would be £25 + VAT per year and your email account would be charged at £25 + VAT per email account. With this scenario, Year 1 costs would be £550 + VAT and Year 2 costs would be £300 + VAT. The cost of email accounts at £25 + VAT each are the same inside or outside of the framework and is the same cost to all Parish/Town Councils regardless of the size of their precept.

Going via the LCC Framework you would be signing up to a three year contract so the prices are fixed for three years. Coming to us outside of the LCC Framework we would charge you annually. Though we have no intention of putting our prices up, we can't guarantee this.

If you chose to go to a different supplier for your website, you could retain your domain name and email accounts with 2commune. A [.org.uk](#) domain name and 1 email account would currently be priced at £50 + VAT per year (£25 + VAT each per year).

I notice you currently have a clerk@ and a chair@ email account. If you chose to go to a different supplier you could retain your existing email messages. However, you would need to copy all existing email messages over to the new supplier yourselves as this is something we wouldn't support.

Please let me know if you require any further advice.

Kind Regards

Tina
